I HEREBY GIVE Success Center and Terry Brussel-Gibbons the unqualified right to publish, print and reproduce the following endorsements in whole or in part which includes my name, city, state and occupation for any commercial, public or private use.

The following statement and/or endorsement is a true and factual representation of my experience and results at Success Center.

Terry Brussel-Gibbons encouraged me to work with clients over the phone. I didn't believe that the deep, spiritually intense work I did could be done over the phone. Then the sessions I did with Terry herself over the phone yielded tremendous results for her. Now over 50% of my practice is phone work and as a result my practice and therapy income has doubled in size in the last 6 months. No matter what you believe about telephone sessions, take it from me, you are cheating yourself and your clients by not working over the phone. Any spiritually oriented therapist knows that we are all connected on the etheric plain. Through Terry's encouragement and belief I was able to experience that telepathic connection to make therapy effective.

Regarding, Terry Brussel-Gibbons

This is a letter to give a testimonial for Terry Brussel-Gibbons and her Seven Key Turn Key System.

It has been a long time since I have seen so much time, effort and expertise put into perfecting a system that could help other Hypnotherapists set-up a very successful practice. I believe that Terry is a very well qualified to teach a class and I believe that Terry's workshop would be a valuable asset to the already successful ACHE conference .

Your sincerely,

Diane Edwards

To Whom It May Concern:

I have been acquainted with Terry Brussel-Gibbons, both personally and professionally, for the better part of 25 years.

As part of my practice, I have been aware of, and utilized, the benefits of the adjunctive use of hypnotherapy.

I have recommended its usage for patients that can benefit from the pain management and muscle relaxing techniques that are just a small part of the applications that this healing art can provide.

As part of my interests in all fields of healthcare, I came to know Ms. Brussel-Gibbons. I know Terry to be a gifted practitioner of these techniques, including ones that she has been instrumental in developing in her role as an innovator in the field for more than a quarter of a century.

As in my case, she is the child of a practitioner, and can call on her fathers depth of experience to extend her understanding of the problems confronting her patients. As such is the case, she can be easily be described as the hypnotherapist's hypnotherapist.

In conclusion, I can and do highly recommend Terry Brussel-Gibbons for consultation and treatment in this highly specialized field of endeavor.

For further information, please feel free to contact me at my offices.

Sincerely,

Robert Rich, D.C.
